

Frequently Asked Questions

For Introduction to Arboriculture CD Series

Will this CD run on a PC or a Macintosh?

It will only run on a PC.

What computer requirements will I need to run the CD training program?

Windows XP® or Vista™ operating systems

800 MHz Pentium® III or better

256 MB of RAM

24X CD-ROM or better

1024 x 768 display at 16-bit color

Sound card and speakers

What if the program doesn't autostart when I insert the CD into the computer?

Place the CD into your CD-ROM drive. Locate the .exe file and double-click to launch the program.

Are there CEUs (Continuing Education Units) available with this CD series?

Yes, each CD offers CEU credits. To receive your credits you must take the quiz and have an 80% pass rate. You may then print the certificate and mail it to ISA. Or if you have an internet connection at the end of each quiz you may submit your answers directly to ISA's Certification Department.

How can I get other titles in the series?

View our other titles at <http://www.isa-arbor.com/publications/CDDemos.aspx?ID=1>
