

Xylem Tree Experts Becomes an ISA Canopy Partner

ATLANTA, Ga. — The International Society of Arboriculture (ISA) is pleased to announce that Xylem Tree Experts (Xylem), a leading utility line clearance and vegetation management company with a proven track record of excellence, will support the ISA through its Canopy Partners program.

The ISA Canopy Partners program is a powerful, global initiative that unites industry leaders to support ISA's mission to promote the professional practice of arboriculture, inform the public about tree benefits, and provide a network of arborists, urban foresters, and tree enthusiasts worldwide.

"We are thrilled to introduce our new ISA Canopy Partner—Xylem Tree Experts," announced Caitlyn Pollihan, ISA's executive director and CEO. "Their decision to invest in ISA and align with our mission is commendable. Their support will enable ISA to continue promoting the profession and educating the public about the invaluable benefits of trees and the dedicated individuals who care for them."

Established in 1974, Xylem Tree Experts provides vegetation management services to large investor-owned utilities, rural electric cooperatives, and municipalities. The organization was originally founded in Norfolk, Va., but has since expanded to more than 35 states across the country.

"Xylem is honored to collaborate with ISA in promoting excellence and best practices in the field of arboriculture as an ISA Gold Canopy Partner," said Randolph Hoover, Chief Executive Officer of Xylem. "We are committed to advancing ISA's goals to foster awareness of the vital importance of trees and their responsible management."

Through the Canopy Partners program, ISA is committed to providing arborists with the necessary tools, services, and research to serve and educate the public and advance the profession and the tree care industry worldwide. This program also plays a crucial role in addressing critical environmental issues, influencing decision-makers and policymakers, and spreading valuable education and research while staying at the forefront of industry trends, innovation, and technology.
