

# Examples of eligible Continuing Education Unit (CEU) events/media:

## **Instructor-led Events**

Workshops, conferences, webinars and local events held by your local ISA Chapter, Associate Organization or Professional Affiliates.

## **Self-guided study**

Publications, podcasts or e-learning that have formal learning objectives and a scored assessment. The assessment/quiz should have at least 20 questions. Successful completion and CEU award requires a minimum 80% overall score. *This type of media is not available for post-approval, only pre-approved media will be accepted.*

## **College Courses and Assessment-based Programs**

College courses, diplomas or certificate-based courses directly related to arboriculture may be eligible for 12 CEUs per credit hour. For example, a 3-credit hour college course is worth 36 CEUs. Proof of passing mark is required.

## **Instructing and Presenting**

Instructors and presenters of arboriculture-related education such as seminars, conferences, webinars, and workshops can be awarded the same number of CEUs the attendees would receive at those events.

## **Participation in Tree Climbing Championship Events**

Climbers, judges, and technicians can be awarded up to 3 CEUs for participation at ITCC and Chapter TCC events.

## **First Aid or CPR class**

CPR and First Aid classes, or renewals, are each worth 4 CEUs. A copy of your card is needed to earn the CEUs. *CEUs for CPR and First Aid will only be awarded once per certification period.*

## **In-House Training**

Many companies and government agencies offer in-house training. Any course pertaining to tree care and safety is eligible for CEUs. This may include safety meetings, CPR/First Aid, chainsaw safety, etc. Please contact ISA to find out if your in-house training opportunities qualify for CEUs.
