

NOTICE

The videos shown in this series have been produced to be used as an aid in demonstrating different tree care related work techniques and skills. The videos are intended for use only by, or in conjunction with trained staff. It may be used as a part of, but not as a replacement for, a comprehensive training program. The ideas, procedures, and observations demonstrated in the videos must be analyzed, and at times modified, to meet the specific needs of the individual situation.

While the videos provide some detailed explanations and demonstrations about different equipment and techniques, actual use requires knowledge of and experience with the equipment and techniques prior to use in actual work environment. Be sure to understand the proper use of all equipment required, and use safe work practices at all times.

Familiarize yourself with local, state, provincial, national, or federal government standards as applicable to the job assignment and requirements. Refer to your company employee training manual for specific standards related to job performance, required and recommended personal protective equipment, and safe work practices related to the job assignment.

The information and practices portrayed in these videos are current as of time of posting, which may or may not be the most effective or applicable at the date of viewing.
